

I'm going to try to be as spoiler free as possible. With that said, in order to explain how to unlock everything I can't really keep it that way. So after the spoiler free unlocks are out of the way, a separate page will be added for spoiler stuff.

## **READ THAT SECTION AT YOUR OWN RISK**

I also get that a fair portion of this will be on the wiki but having everything condensed like this can be useful for some.

Now let's jump in shall we?

### Medallions:

Soul Medal: Conquest  $\geq 15$  or Reign + Conquest = 25

Champion Medal: Reign  $\geq 15$  or Reign + Conquest = 25

King Medal: Conquest  $\geq 25$  or Reign + Conquest = 40

Apostle Medal: Reign  $\geq 25$  or Reign + Conquest = 40

God Medal: Reign + Conquest  $\geq 65$

Tail Medal: Reign + Conquest  $\geq 90$  or Cleared all 3 routes (Normal, Law, Chaos)

Madness Medal: Complete all 3 routes (Normal, Law, Chaos), clear Battle Royale at least once on Hard or above, and while in Fate mode clear the game with a berserk difficulty selected (either story or battle royale works)

### Routes:

Law Route: Law  $\geq 20$  and Conquest  $\leq 29$  (Having more than 30 Conquest locks you into the Chaos route, hence the  $\leq$  Keep in mind that you only need less than 30 Conquest. Having a Conquest of 0 will still get you into the Law Route)

Chaos Route: Conquest  $\geq 20$

### Characters:

Fenrir: 2 Affection by the end of Thor's chapter (Ally with her at the start of the chapter and select the 'Use Force' choice when you conquer her forces for an easy 2 affection points)(Otherwise you get Affection at Mingle 20 and 40)

Jorm: 2 Affection by the end of Rigret's chapter (Need to fight the golems when prompted during the story section where she appears and chase after her when you defeat all of her forces)(will also stay regardless of affection levels if either of the other 2 sisters is also recruited)(Scenes that give Affection are at 10 and 40 Mingle, hence why it is better to invade Rigret's area later on as you'll likely have one of the other 2 sisters)

Hel: 2 Affection by the end of Odin's chapter (choose not to ally with Hel at the start of chapter and after conquering her forces, choose 'Show their power' for an easy 2 Affection points)(Otherwise Mingle 10 and 20 give Affection)

Disir: Recruit the 3 demon sisters and be on the Law route. Cooperate with the Reaper when prompted. (Demon sisters may also need to be Affection 6 or higher, not sure on this)

### Titles:

In order to get Heroine Title scenes, you need to have them at 99 Mingle with at least 3 Affection. This means you need to not only Mingle with them but Mesmerize/Train them as well as most Affection points come from Mesmerize/Train. They must also NOT be corrupted. Corrupting them locks you out of the Title select scene. After viewing the Title selecting scene they will be unable to be corrupted.

The Demon Sisters Titles are tied to their specific ending  
Loki's Title is unlocked by completing the Law Route  
Hved's Title is unlocked after completing the Chaos Route  
Garm's Title is unlocked by completing the game once  
Fena gets differing Titles based on the ending you get  
Menia gets her Title by achieving her ending on the Chaos route

### Endings:

Heroines(Pure or Corrupted and Demon Sisters): 6 Affection or higher (Demon Sisters share one ending and thus all need to be 6 or higher)  
Fena: 9 Affection and on the Law Route  
Menia: Fena with 8 Affection and on the Chaos Route  
Harem End: All cast 6 Affection or higher on the Chaos Route  
Chaos Route Hidden End: Turn each Goddess into a Mad Goddess
